Medicare Denials of Audio Only/Psychotherapy Code Combinations

NYSPA has been alerted that an issue has arisen involving payment for telephone codes plus psychotherapy add-on codes (e.g., 99441 + 90833, etc.) that are being billed to Medicare for service dates beginning October 1, 2020. NYSPA and APA are working to correct what we believe is an error causing these denials. We will update the membership as soon as additional information becomes available.
